

READY TO PLAY

Revisit the airports in the *Sky Team* box.

Each **READY TO PLAY** scenario tells you which Approach Track to use, as well as the modules and modifiers to put in place.

Each combination offers a new challenge, often different from the one on the original Approach Track.

1 Scenario's Final Difficulty

2 Flavour text
The air traffic is spread out before you. Watch out for the windy conditions. You'll need to be calm and precise to land your plane in the Czech capital.

3 Approach Track to use

4 Altitude Track side to use

5 Modules to use

6 Special Abilities to use

7 Specific modifications
Add a plane on the 1st and 2nd spaces.

SCENARIOS

YUL Montréal-Trudeau

You're heading back to Montreal. This time it's the dead of winter, and the mercury itself is nearly frozen. Your Intern is worried about landing on an icy runway... Are you?

APPROACH **ALTITUDE**

YUL Montréal-Trudeau

MODULES **SPECIAL ABILITIES**

LHR Heathrow

Approaching London. You are already at 5000 feet. Will you be able to keep your calm while your reflexes are put to the test?
